

## YELLOWGLEN 'RED'

---

The Yellowglen Winery takes its name from a gold mine discovered in what are now Pinot Noir vineyards. Today the soil delivers gold of another kind. Every aspect of our wine making, from the planting of our vines to the presentation of our bottles, is designed to deliver premium quality. We are committed to continually improving every aspect of what we do, to ensure it continues to be Australia's finest.

Sparkling 'red' is an Australian style of wine that dates back to the First World War. Clean and refreshing, this style is a huge part of the renaissance in sparkling wines.

**Winemaker's Notes:** With a deep concentration in colour, it has lifted raspberry, plum and blackcurrant aromas on the nose. The palate displays rich, ripe berry fruit flavours, subtle nuances of chocolate and some enticing savoury characters. It has plenty of flavour and a soothing creamy texture in the mouth. The finish is firm without being drying or overtly sweet.

**Winemaker:** Charles Hargrave

**Cellaring:** Best consumed young and chilled.

**Suggested Food:** Ideal as an aperitif style or as an accompaniment to a fresh mixed berry salad.

**Viticulture:** This is a non-vintage, multi varietal wine with fruit being sourced from vineyards throughout South-East Australia. The base wine is sourced from the best vineyards to ensure a consistency in style and quality.

### TECHNICAL ANALYSIS

**pH:** 3.43

**Acidity:** 6.25 g/L

**Residual Sugar:** 36 g/L

**Alc/Vol:** 13 %
