Wine Details

In the last 10 years Delatite has made wine as naturally as possible. We use 100% wild yeast in all Estate wines and have no enzymes or fining agents* and minimal Sulphur. This allows the wines to fully show the vineyard's characteristics. The grapes are grown following biodynamic principles which doesn't allow the use of artificial inputs; encouraging greater biodiversity in the vineyard.

*Fining agents are protein based compounds used to reduce the level of phenolics in the wine. Not adding them makes our wines vegan friendly.

Tasting Notes

Aroma

Aromas of lemon, musk and peach come across for this wine

Palate

The wine is full bodied with lemon flavours at the front of the palate leading to lovely ripe stone fruit coming through and a finish reminiscent of roses.

Food Pairing

This will go well with pork and Asian cuisine

Notes

Viticulture

The 2021 growing season was a warm and even vintage with cool nights, giving us fruit that that expressed some of the best characteristics we have seen recently.

Technical

Cellaring

This will cellar for 10-20 years

Alcohol

13.5%
